LAUREL

Kenneth Woodard

Dear Kenny,

Well, old pal, we are coming to the end of the road here at M.H.S. Next year we will be going our ~~sparate~~ ways and I doubt that we will see too much of each other. It would be useless to try and recount all the times (good and bad) we've had together. I'm quite sure you know that I have always considered you my ~~a~~ closest and dearest friend, and although we've had our fights and misunderstandings, I really do like and admire you a whole lot. Keep your high ideals (they really are) and your courage and don't let the bidding of some of your acquaintances get you down (I really think they like you but won't admit it). There's really no use in wishing you good luck because you've always done well in the things you've wanted to do well in. I hope to see a lot of you in the future, and God bless you.

Votre cher ami,

David Taylor

To my long friend
and fellow electronics nut
Ron Bonis

Best of luck to a
fine kid and a hardworker
It's been great knowing you
I'm sure we'll be hearing
from you in the future
Best of luck always
Don

Do real great stuff
when I'm dead,
will succeed greatly.
Friendpower,
Tim

Best of luck always
Bob Gower

Ken,
I have enjoyed
knowing you these
past few years. You
are a very nice
guy and I know you
will succeed.
Always a friend,
Jane Frazier

ACQUIRING AND APPLYING

Mrs. Haywood is trying for the first time to take double duty with combined Latin I and II classes.

The foreign language students may not believe it but French can be made easy through the use of bulletin boards.

Lively panel discussions aid the study of senior English and sometimes even hinders it.

Mrs. Seago emphasizes to her students the importance of creative writing in a minimum time limit.

A KNOWLEDGE OF LANGUAGE

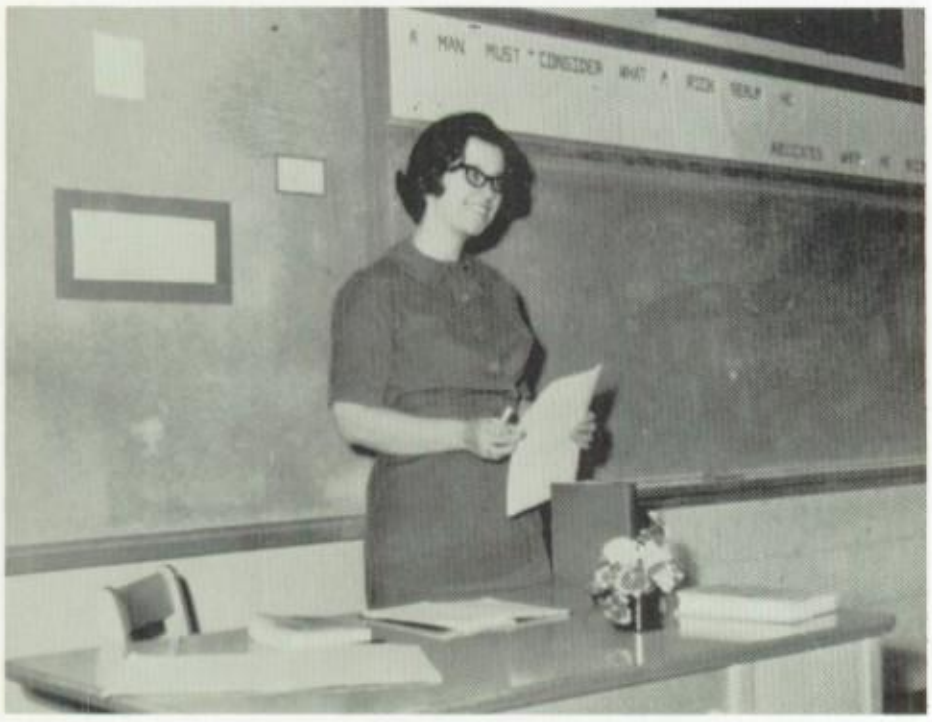
Verb conjugations aren't easy, but Mrs. Pollard helps her students as much as she can.

Practicing public speaking can be rather difficult for some, but it is more often very hilarious.

Mrs. Thomas explains the ever - evident symbolism in Great Expectations to her freshman English students.

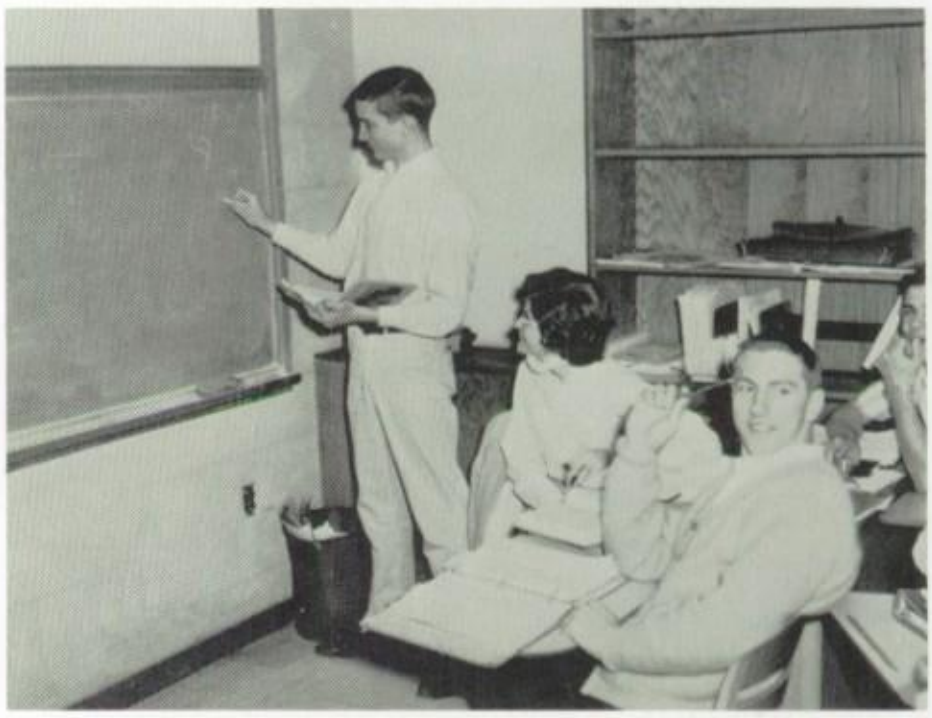
The parts of speech are clearly defined through the explicit instructions of Mrs. Thomas.

MATHEMATICS FOR PROGRESS



Miss Pate goes over a test that she didn't think was so hard but her Algebra I students disagree.

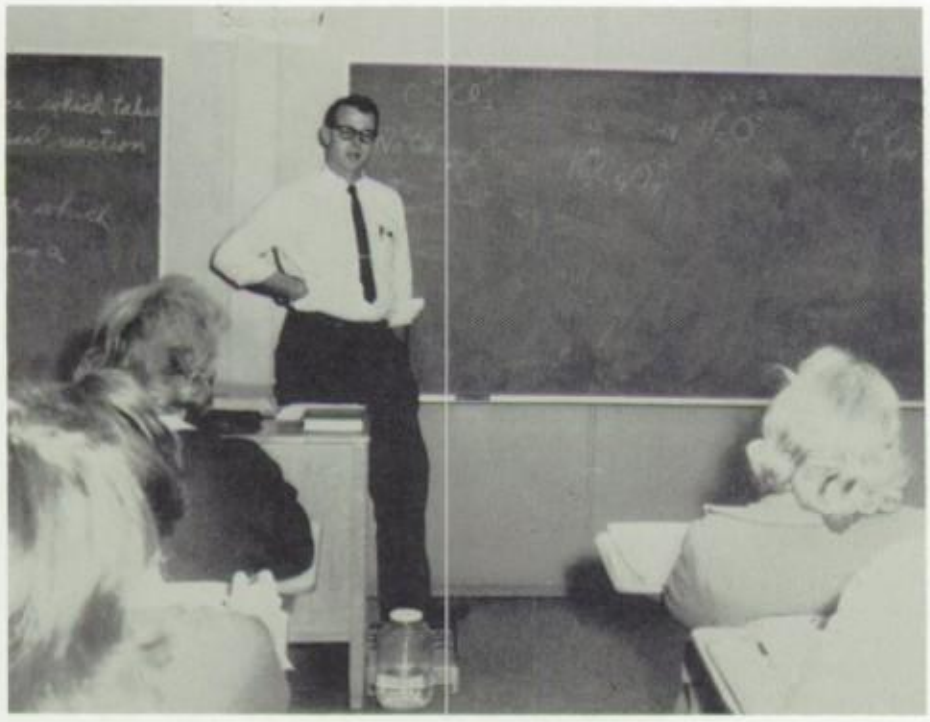
Business math is a new subject being taught at Millbrook this year. It sometimes proves to be a very interesting class when certain students get the urge to give Mrs. Curtis quite a bit of unwanted help (?). How about it, Mike, Clem, and Billy?



Mr. Farthing's students are mostly at odds with themselves when he starts spouting axioms, laws, and rules.

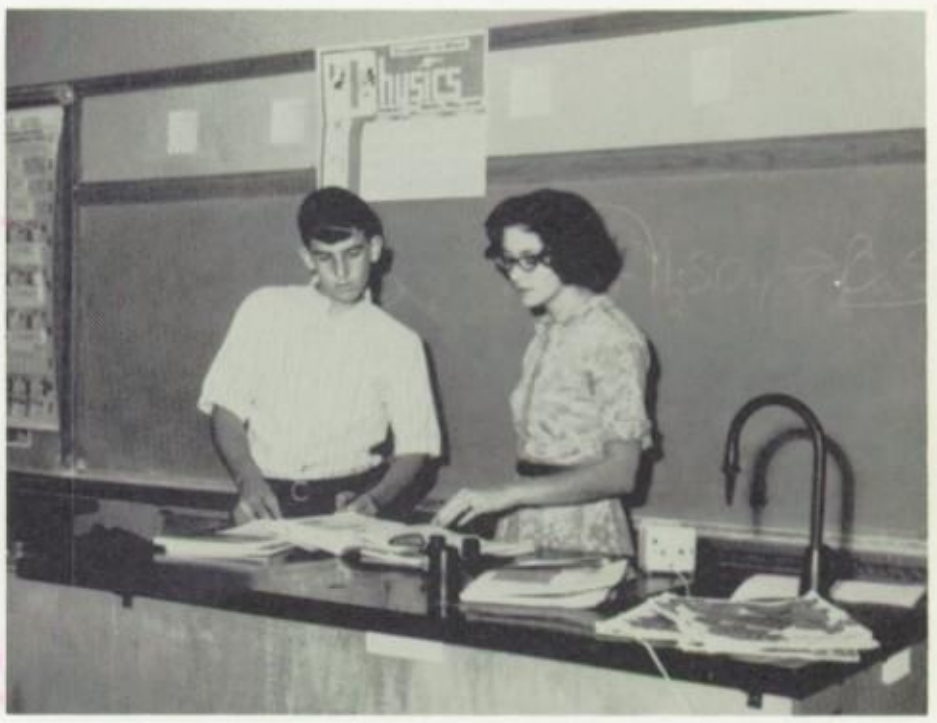
SCIENCE FOR A BETTER WORLD

Mr. Harrell works diligently to "plant" facts about plant life (and animal life, for that matter) in his students' heads.

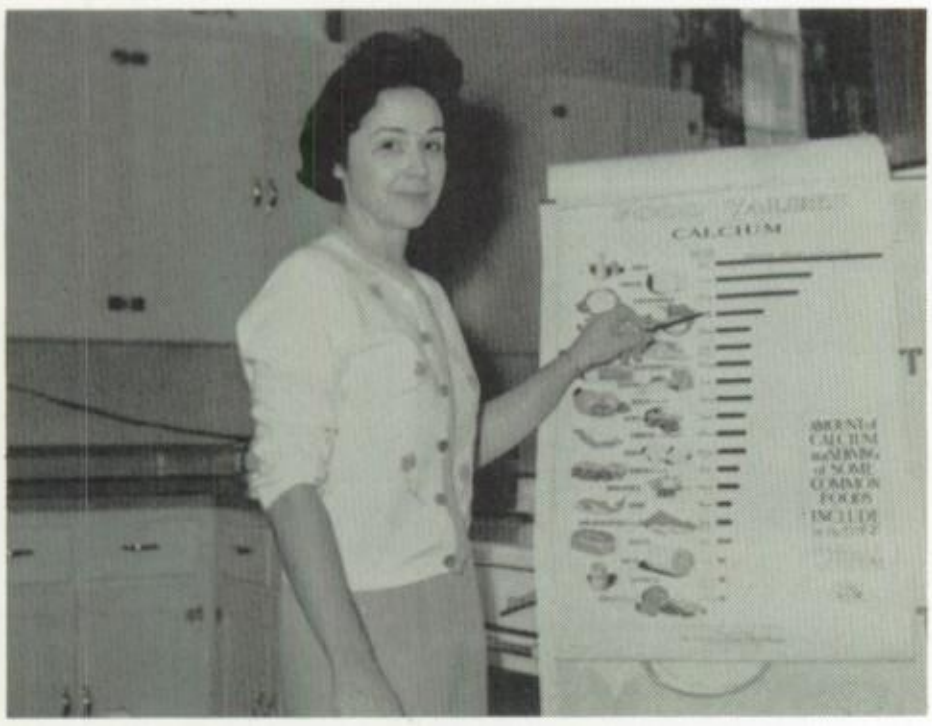


Mr. Pleasants is one of the two teachers taking over the instruction of physical science which is a new subject being taught at Millbrook this year. This new course includes writing and balancing chemical equations, which is one of the many things the students did not get in general science.

Poor confused Bryan! He just can't seem to learn how to work those problems dealing with chemical equations.



TODAY'S AND TOMORROW'S LEADERS IN



As Mrs. Pendleton strives to stress the importance of calcium in the body, she uses charts so that the home economics students might get the full meaning of this vitamin and what it does. Here, she points out the calcium content of cheese.

The girls taking third year home economics have had a six weeks course this year on baby care. Here a few of the girls look on as Mrs. Hill, the demonstrator, uses a doll to show them how to bathe such a small thing.

"Practice makes perfect," says Mrs. Reese to her Typing I students. They have to do a lot of it in order to have better speed and fewer errors. Some wonder how much practice it does take.

This would have been more helpful for me for three hours a day. I hope your time was well spent and that what you learned will prove to be useful. I enjoyed teaching you. You were very quiet and tried hard at EC. I feel really this is. Mr. Reese

BUSINESS AND VOCATIONAL

Our Distributive Education Club has made very good showings at the conventions in the past few years. In November, this year's was held in Roxboro. Beforehand, Mrs. Berry helped by telling her classes some of the things they would have to do in the presence of the judges.

The boys in agriculture learn many trades that will be very valuable to them in a few years, one of these being welding. Here, Wayne Holliday demonstrates acetylene welding to some boys in his second period "ag" class.

Mr. Winborne leads his FFA boys in learning many kinds of work that will develop and increase their skills. These skills will be a good guidance in the years before them whether it is personal work or a career in public service.

SOCIAL STUDIES FOR A BETTER FUTURE

Mr. Cobb has a full time job teaching the two history classes as well as being assistant Principal. Here he leads the world history class in an open discussion on the Renaissance before the telecast.

The study of economics deals with the laws affecting the production, distribution, and consumption of wealth. This will help the students have a better understanding of their personal financial problems as well as their country's.

We, as citizens of the United States, should recognize and understand our rights and duties of citizenship. Civics deals with this problem and helps Millbrook students get acquainted with what they face as future citizens.

The library assistants are ready and willing to help Mrs. Dalton and the students when they ask.

Judy Davis and Sue Dalton are getting the books ready to be returned to the shelves.

The library is a place where peace and quiet can be found, most of the time.

JUNIOR VARSITY BASKETBALL

Dear Kenny,
This is to a wonderful boy whom I have known many years. Cheers! To all the fun we've had and all the trouble we've gotten into.
Kenny, you are much more to me than just a friend or school chum, but someone special. I don't just know how to express it in words.
School is drawing to an end and it will be goodbye as schoolmates but not as friends. I hope to see as much of you in the future as I have in the past years. The past years I have known you are not just plain years, but treasured and never forgotten years. Remember the times we spent [illegible] kids? We got sick but it was fun while it lasted.
We finally made it! Seniors at last. It was a long journey but well worth it. Kenny, may all the happiness in the world be yours. Because if anyone deserves it, you. May God bless and keep you forever and guide your every step. Keep smiling and stay happy and best wishes always.
Love always,

SENIOR CLASS HISTORY

Starry-eyed, the Class of '65 first walked into the doors of Millbrook High School in 1961. Through the efforts of our freshman sponsors, we were soon organized and had elected Ijar Carter, David Pattishall, Kathy Holden, Jackie Evans, Clem Williams, and Bucky Howard to lead the class.

The fall of '62 brought a new breed of sophomores with the vital experience of co-operation. With the help and understanding of our advisors, our class officers, Dan Funderburk, David Pattishall, Kathy Holden, Sue Jones, Wanda Hardin, Bucky Howard, and Clem Williams, lead the class to a glorious success in our spring dance, "Dogwood Festival."

Our third year of high school brought with it a terrific burden of responsibility. We elected capable leaders to assume some of this responsibility and to guide the class in its many activities. Dan Funderburk, David Pattishall, Vicki Harper, Sue Jones, Billy Walton, and Bucky Howard proved their ability in the accomplishments of our magazine sale. Our biggest event was made possible through the advice of Mrs. Reese, Mrs. Thomas, and Miss Hatcher; the dream of "Moonlight and Roses" became a beautiful reality of a Junior-Senior Prom at Memorial Auditorium. With the benefit of Career Day and the excitement of ordering class rings, we faced the year ahead as seniors.

Our first trip down the aisle was led by our new officers; Dan Funderburk, Kathy Holden, Vicki Harper, Linda Hilliard, Toni Ketner, William Bailey, and Sue Jones. The excitement of Homecoming brought the memory of those who have represented our class through the years; Faye Tharrington, Kathy Holden, and Wanda Hardin. This year, the Homecoming Queen was our own queen, Kathy Holden, attended by Joyce Wrape and Wanda Hardin. We received our class rings and with them the distinction of being the first class to have our own school seal, designed by Betty Brinkley, engraved on the side. Thoughts of the future were stirred up by College Day at Reynolds Coliseum. Mascots were chosen and with the encouragement of Mrs. Haywood and Mrs. Seago, our advisors, we started a new semester, our last at Millbrook. We were measured for caps and gowns and began thinking about a senior play. After being honored at our last dance, we seniors looked back on our four years of high school and realized the true meaning of our motto: "In life there are no final exams; the tests come every day."

Now as we await commencement and the end of our days at M. H. S., we possess a far greater insight into the future and we feel we are better prepared for life on a far greater campus . . . the world!

The editors wish to sincerely thank the business establishments represented for their support of the 1965 LAUREL. We strongly advocate the patronage of these firms by the student body of Millbrook.

Woodard, there are few guys that could take all the cuts that you do in such good grace, but I guess that's just another one of your hidden traits that no one sees. Best always,

Jim
